ROLE INTRODUCTION

Raukawa Kaiārahi Team:

Tiwai Hauora is currently developing a number of innovative service initiatives within Oranga Tamariki, which will provide the foundation for delivering holistic, aspirational, cultural services to our people and community.

Raukawa Kaupapa Practice Framework:

Tiwai Hauora is developing a unique holistic, aspirational and cultural approach: “Raukawa Kaupapa Practice Framework” which will be central to our service delivery within the social services and health sector.

The practice of the Raukawa Kaiārahi – Transition Service will be embedded within this framework and will work closely with the Co-Team Leader(s) – Social Services.

Features include:

Te Whare Tapa Wha:

Te Whare Tapa Wha is the practice model that sits at the heart of our Raukawa Kaupapa Practice Framework. With its strong foundations and four equal sides, the symbol of the wharenuī illustrates the four dimensions of Māori Health and wellbeing.

Te Aho Tapu:

Te Aho Tapu, or the sacred thread, is the name given to the first line in weaving, as this is the line that sets the pattern that the rest of the weaving must take.

The name not only represents our view that Raukawa values set the direction for all that we do- but also that these values pass through us and link us altogether. Te Aho Tapu intends to provide support and connections for tamariki, rangatahi and their whānau throughout their life, it also provides the ability to take a holistic approach that extends beyond service engagement and intervention.

Whānau Ora:

Whānau ora acknowledges the centrality of whānau to Māori social life and works collectively to build the capability of whānau to maintain their own wellbeing.

Advancing whānau ora through supporting the aspirational goals of our tamariki, rangatahi and whānau is one of the key features of our Raukawa Kaupapa Practice Framework.

As an iwi organisation that has a rich history of successfully delivering Kaupapa Māori Health and Social Services, a whānau centred approach is well grafted into our service delivery.

Best Practice Tools:

The Raukawa Kaupapa Practice Framework will also be informed by the best western practice tools and approaches, all of which will help provide the appropriate practice holistic initiatives to support our tamariki, rangatahi and their whānau on their journey of health and wellbeing.

Within the Raukawa Kaiārahi – Transition Service it is envisaged there will be three stages of transition support:

Stage One: Preparation	Whilst the young person is still in care, the Statutory Social Worker is the lead worker and the Raukawa Kaiārahi main focus is on building a relationship with the young person, supporting implementation of the transition plan and connecting the young person to opportunities to broaden their networks of support and confidence.
Stage Two: Active Transition	As the young person leaves care, the Raukawa Kaiārahi becomes the key support role and maintains proactive contact and support with young people to the age of 21 years. This will involve helping them to navigate the services and supports they need.
Stage Three: Post-Care Support	Young adults are able to request advice and assistance to the age of 25 years. Should they require face-to-face support, this will be delivered by the Raukawa Kaiārahi. Some young adults with higher needs may require on-going proactive support for a longer period and the Raukawa Kaiārahi may hold a coordination role whilst ensuring appropriate adult services are in place and the young adult is receiving the support they need.
