

Machine Operator in a steel tube manufacturing Company.

Industrial Tube is a privately-owned company based in Hamilton manufacturing both Mild and Stainless-steel tube.

Working in our production department we are looking for a person to operate our semi-automated manufacturing machinery.

This position would suit someone with good mechanical experience/aptitude, and an attitude to learn. Being self-motivated, a team player and keeping up with the pace of production is essential.

Duties include:

- Receive, check, move and stack incoming material.
- Setting up and operating the production machines including inputting and programming data into the machine interfaces.
- Using computer-based production management systems, record production and quality information.
- Work in a team environment so production outputs are ensured and completed in a timely manner.
- Pack and move products into the stock area.

Prerequisites:

- Previous machine operating experience
- Having a Basic understanding of computers and can input information.
- Can work in a team environment
- Good communication skills
- Have a positive attitude and willingness to learn. Can pay attention to detail and problem solve quickly and efficiently.
- Good understanding of H&S practices and procedures. (Can work safely)
- Be able to operate a Forklift. (Training will be provided)
- Be able to operate a Gantry Crane. (Training will be provided)
- Physically fit
- Police Clearance required, ITM maintains a drug free environment.

In return we offer Monday to Friday work. Normally 40 hours per week worked from 6.30 – 4.00pm plus OT if required.

Bonus Systems which include both hours and extra income.

We don't work on public holidays and 3 weeks off during Xmas and New Year's.

We also offer Job stability with competitive wages and benefits. Our Company embraces Lean Manufacturing principles.
